ONETRIPS cancellation policy

You may cancel a booking from the booking page when the current status allows it. Unpaid holds are cancelled immediately. After payment, cancellation follows supplier rules and may incur fees. Issued tickets may need to be voided before a refund can start. Failed supplier bookings are cancelled without a ticket.

REFUND POLICY

ONETRIPS refund policy

Refunds follow the fare or room rules of the supplier and the booking state on ONETRIPS. Non-refundable fares and rooms may not be refundable after ticketing. If payment is captured and the booking later fails or is cancelled where the rules allow, we initiate a refund through the original payment method or wallet. Partial refunds leave the remainder open until settled. Refund status is shown on the booking page. Processing times depend on the payment provider.
